

# CUSTOM-PACKAGED CONNECTED PATIENT DIAGNOSTIC KITS

## EQUIPPING PATIENTS TO CONNECT WITH THEIR HEALTH AND THEIR PROVIDERS FROM THE COMFORT OF HOME

Connected Care by Veridian Healthcare produces patient kits containing connected diagnostic devices and accessories chosen specifically to meet the clinical requirements of their providers.

From device selection and procurement to direct delivery to a patient's residence, patient kits are designed to make start-up easy for the provider organization as well as for patients at home.

### FOR PROVIDERS:

- Patient kits are completely customizable to meet clinical requirements of prescribing providers.
- Low- or no-cost off-balance-sheet startup financing is available for startup inventory.
- Clinical staff can order a patient's kit via our Oracle NetSuite® platform.
- Ordering can be integrated with most electronic medical records systems, making it seamless for staff to prescribe and order their kit within one system.
- Direct-to-patient shipping from our U.S. packaging and shipping facilities eliminates handling and warehousing costs.
- Devices and the kits can be custom-labeled and branded to reinforce a provider's brand.

### FOR PATIENTS:

- High quality devices and accessories can be delivered direct to the patient's home in one complete kit.
- Patients can start using their connected diagnostic kits immediately.
- Veridian's extensive global network of manufacturers and shipping partners assures a stable supply chain and rapid time from the provider's order to delivery at the patient's home.
- Devices are inspected for quality and functionality prior to kit assembly in our 150,000 square foot warehousing and shipping locations.
- Device start-up and use instructions are customized for easy comprehension by patients and their caregivers.
- All patients have access to a toll-free Customer Care line, where a Veridian Healthcare representative in our Illinois corporate office is eager to help.

## COMMITMENT TO QUALITY

Patient safety and product quality is the foundation of our company culture. For more than 15 years, Veridian Healthcare has been the nation's leader in delivering affordable diagnostic devices and turnkey in-home care solutions for healthcare providers, ACO's and large retailers.

## OUR QUALITY STANDARDS INCLUDE:

- Third party testing of all new products to ensure they meet our customer's specific requirements.
- Veridian Healthcare maintains a Quality Management System compliant with ISO 13485:2016
- Veridian Healthcare is an FDA-registered repackager/relabeler of medical devices under 21 CFR Parts 820, 210, and 211.
- Veridian Healthcare Supplier ISO, GMP and Social Responsibility Audits are reviewed annually.
- Our software solutions are SOC2 Type II, HIPAA compliant
