PROVIDER STAFF DASHBOARD

Connected Care is a fully integrated suite of diagnostic devices, software integration, remote patient monitoring, and logistics management for patients and providers.

## END-TO-END PROGRAM

Connected Care's modular approach enables us to leverage our deep expertise to deliver products and services selected for a provider's unique needs.

- Customized RPM program design
- Software set up and EMR integration
- Device selection per provider specification
- Design and engineering of patient kits
- Procurement, customization, warehousing at scale
- Online ordering and to-patient delivery
- Biometric monitoring and triage to provider intervention when necessary

Whether a complete turnkey program or as a complement to existing patient services, Connected Care is tailored to the unique needs of our customers. Each program element is customizable including device labeling, software branding and an exceptional out-of-box experience that designed to build patient trust.

BY VERIDIAN HEALTHCARE

## A PROVEN SOLUTION

Connected Care connects patients with providers enabling real-time ongoing medical support in the comfort of the patient's home.

- Increase patient engagement
- Improve clinical outcomes
- Prevent unnecessary re-admissions
- Reduce clinical staff workload
- Little or no-cost for initial device inventory

Connected Care Healthcare is the nation's leader in affordable diagnostic devices and turnkey in-home care solutions for healthcare providers, ACO's and large retailers. With more than 15 years in the industry, we have attained:

- FDA registration as a repackager/ relabeler under 21 CFR Parts 820, 210, and 211
- SOC2 Type II, HIPAA compliant
- ISO 13485:2016 compliant
- Device testing and packaging is conducted in one of our three warehousing and fulfillment centers totaling more than 150,000 square feet with state-of-the-art shipping and inventory management capacity.
- All patients have access to a toll-free Customer Care line, where a Veridian Healthcare service expert in our Illinois corporate office is eager to help.
